

The Essential Protein Engineering Summit

April 30 - May 4, 2018 • Seaport World Trade Center • Boston, MA

	MONDAY - TUESDAY (APRIL 30 – MAY 1)	WEDNESDAY-THURSDAY AM (MAY 2-3)	THURSDAY PM - FRIDAY (MAY 3-4)
 ENGINEERING STREAM	Display of Antibodies	Engineering Antibodies	Engineering Bispecific Antibodies
 ONCOLOGY STREAM	Antibodies for Cancer Therapy	Advancing Bispecific Antibodies & Combination Therapy to the Clinic	Clinical Progress of Antibody-Drug Conjugates
 IMMUNOTHERAPY STREAM	Improving Immunotherapy Efficacy and Safety	CAR Ts, TCRs and TILs	Agonist Immunotherapy Targets
 EXPRESSION STREAM	Difficult to Express Proteins	Optimizing Protein Expression	Protein Expression System Engineering
 ANALYTICAL STREAM	Characterization of Biotherapeutics	Biophysical Analysis of Biotherapeutics	Protein Aggregation and Stability
 IMMUNOGENICITY & BIOASSAYS STREAM	Immunogenicity Case Studies and Clinical Management	Immunogenicity Assay Assessment	Bioassays for Biologics
 BIOCONJUGATES STREAM	Fusion Proteins Therapeutics	Engineering Antibody-Drug Conjugates	Clinical Progress of Antibody-Drug Conjugates
 THERAPEUTICS & TECHNOLOGIES STREAM	Emerging Indications for Antibody Therapeutics	CRISPR for Genome Engineering	Nanotechnology in Medicine
