

16th Annual

# PEGS BOSTON

## VIRTUAL

## CONFERENCE & EXPO

AUGUST 31 - SEPTEMBER 4, 2020

### CONFERENCE AT-A-GLANCE

### 2020 PROGRAMS

**ENGINEERING**

**ONCOLOGY**

**IMMUNOTHERAPY**

**CELL-BASED IMMUNOTHERAPIES**

**ANALYTICAL**

**EXPRESSION**

**IMMUNOGENICITY & BIOASSAYS**

**BIOCONJUGATES**

**EMERGING THERAPEUTICS AND TECHNOLOGIES**

**SHORT COURSES** (MON., AUG. 31)

**MONDAY-TUESDAY** (AUG. 31-SEPT. 1)

Display of Antibodies

Antibodies for Cancer Therapy

Improving Immunotherapy Efficacy and Safety

Improving Immunotherapy Efficacy and Safety

Characterization for Novel Biotherapeutics

Difficult-to-Express Proteins

Immunogenicity Case Studies and Clinical Management

Emerging Indications for Therapeutic Antibodies

SC10: CAR T-Cell Therapy from A-Z  
SC15: Introduction to Gene Therapy Products Manufacturing and Analytics

**WEDNESDAY-THURSDAY AM** (SEPT. 2-3)

Engineering Antibodies

Advancing Bispecific Antibodies and Combination Therapy to the Clinic

CAR Ts, TCRs and TILs

CAR Ts, TCRs and TILs

Biophysical Methods

Optimizing Protein Expression

Immunogenicity Assessment and Regulatory Approval of Biologics

Engineering Antibody-Drug Conjugates

Gene Therapy

**THURSDAY PM-FRIDAY** (SEPT. 3-4)

Engineering Bispecific Antibodies

Clinical Progress of Antibody-Drug Conjugates

Agonist Immunotherapy Targets

Cell and Gene Therapy Analytics

Cell and Gene Therapy Analytics

Protein Expression System Engineering

Optimizing Bioassays for Biologics

Clinical Progress of Antibody-Drug Conjugates
