The Essential Protein & Antibody Engineering Summit

For more than two decades, PEGS Boston has brought together the biologics community, connecting the scientists, researchers, and industry leaders advancing biologics from discovery through development. Sponsorship gives your company the opportunity to put your expertise, technologies, and solutions in front of a highly engaged audience working across protein and antibody engineering, immunotherapy, peptide drug development, T-cell engagers, and AI/ML-enabled biologics research.

Position your company alongside the experts shaping the future of biologics, showcase your capabilities, and build meaningful connections with the researchers and decision-makers driving the field forward.

Share your expertise. Showcase your solutions. Build connections across the biologics community.
